## 01. Introduction

# What is Cryptoholics Token

### **What is Cryptoholics token and what's the plan?**

#### **What is Cryptoholics Token?**

Cryptoholics token was Originally Created as a Fan token for all the Followers on our Youtube Channel. Since this time, we have wanted it to be Much more than a Fan token.

Working Closely with Non-profit Organizations to help fund there causes to save or Planet we Live in!

Names of these Organizations will be added as we onboard them in the Future.

## 02.Tokenomics

### Rewarding holder's long term

**15%**

The buy tax

**4%**

Marketing/Product development

**5%**

Liquidity

### How the taxation works

The \$CRH tokens are the native currency on the Cryptoholicstoken.com platform and are meant to be used purchases on the platform. To reward long-term investors we've integrated rewards functionality directly into the contract which automatically transfers \$spaces to investors wallets. With every purchases through the platform (NFT Minting, coin updates etc.) the tokens are being taxed (15%) . This construction of our payments-system ensures that liquidity is added to the pool while rewarding the holders. Enabling a stabilizing economy with passive yield for the long-term holders and investors.

# 02. Tokenomics

## Spaces rewards

### **How does rewards work?**

Rewards are automatically transferred on all transactions to a specific amount of wallets at a time. Any single wallet may only receive automatic rewards Based on Volume of Transactions. On Buys/sells the contract then will swap tokens held by the \$CRH contract and loop through eligible wallets to transfer rewards

You will need to add \$Spaces Contract address

[0x156df0dd6300c73ac692d805720967cf4464776e](https://www.bscscan.com/address/0x156df0dd6300c73ac692d805720967cf4464776e) to your wallet as a Custom Token to see your \$Spaces Rewards

As you hold your \$Spaces you will Earn BNB per there [whitepaper](#).

## 03. The platform

TBD.
